FADE IN

EXT. FOREST.

Amanda is in tears. She puts a rock down that says "My lost brother Adam"

CASEY

I'm sorry. I wouldn't have...

AMANDA

I know, it's okay... I know you wouldn't have shot if you knew. I-I probably would have done the same if I had a gun.

Casey pauses and turns to Cole.

CASEY

Thanks Cole, I-I think you can go home.

COLE

Alright.

Cole puts his hand on Casey's back

COLE

If you ever need someone... Bye.

Cole leaves

CASEY

Do you wanna go back to the house or...

AMANDA

Yeah...

Amanda dries her tears

AMANDA

Yeah, let's go.

CROSS FADE/B-ROLL

EXT. OLD HOUSE

AMANDA

(Shocked)

This is a big mess... Why did he
have to destroy so much?

CASEY

He didn't! It wasn't this bad,
someone else did this.

Casey pulls out a box and puts the bottles in it

CASEY

I don't know if I can replace
them... It took me years to collect
these.

AMANDA

Is there a way to do it without
them?

CASEY

I don't know. I've never done this
before, That's why we've had no
luck.

AMANDA

(Sighs)

Great. Any lead we had is now gone.
We're back at square one.

Amanda sits down against the wall with face in her hands

AMANDA

What do we do now?

Casey laughs slightly as he sits down by her

CASEY

I have no idea. But it's not like
we're going to run out of time is
it? You literally have all of the
time in existence.

Casey waits for response but doesn't get one from Amanda

CASEY

So we start over, we try something
new, do some new research. Maybe
we'll find something even better.

Casey looks around with a sigh

(CONTINUED)

CASEY

It's going to be a real pain to
replace all my stuff though.

Amanda looks up slightly

AMANDA

What's missing?

CASEY

Chemicals like Methylamine,
Ethylamine, Propionic anhydride,
Isosafrole, Safrole, Piperonal,
Hydriodic acid, Benzaldehyde,
Nitroethane, Gamma butyrolactone,
and Iodine.

AMANDA

English?

CASEY

Lots of things that kill mortals
but have no affect on you and when
mixed could make you mortal and not
kill you.

AMANDA

Okay. Where do you get them?

CASEY

You don't. I mean, you could go to
some places and purchase this
stuff. The rest is stuff I had
stolen years ago or got from my dad
back when he was working in a lab.

Shots fired, Casey ducks and pulls Amanda down

AMANDA

What was that?

CASEY

Someone is shooting at us, and I
think I know who it is...

AMANDA

Who?

CASEY

Well, I don't know their name but I
have a feeling it might be the
person who trashed this place.

Casey creeps over to the window, looks down and sees Adam
